UX Designer

Hi we're Telstra Health, and we'd like to tell you a few things about us you might not know. As the largest Australian-based provider of software products, solutions and platform for care providers in the hospital, health service, pharmacy, and aged and disability care sectors, we're committed to improving lives right across Australia.

Aged and Disability

This role will join our Aged and Disability division. Aged and Disability provides software solutions that improve the quality and delivery of care, while reducing risk and increasing operational efficiencies. Telstra Health provides a suite of scalable solutions to support every step of the aged care journey, from in home and community care through to residential aged care.

This role is a six month contract opportunity.

Help us shape a connected future for healthcare by

- Deliver user experience and visual design services that ensure software solutions are well-designed, effective and user friendly.
- Ongoing testing to ensure software solutions have optimum functionality and are user-friendly.
- Contribute to standards, conventions, processes, document templates and frameworks

relating to platform UX e.g.: wireframe document templates, design briefs etc...

- Develop and maintain effective documentation, standard and frameworks, ensuring Style guides are developed for all new digital platforms
- Develop and document personas, wireframes, user stories, prototypes and information architecture.

To Be Successful in This Role You Will Have

- Proven abilities in some UX activities such as wire-framing, user testing, information architecture, personas, user stories, research.
- Demonstrated knowledge and understanding of programming concepts and languages such as JavaScript, HTML, CSS and their benefits and limitations.
- Experience of working across a range of operating systems and platforms such as native iOS/Android, browsers, desktop.
- Experience with Atlassian product suite (desirable)

Experience with a range of visual communication platforms such as Figma, Lucidchart, etc (desirable)

You'll build connections for life through:

- Joining “an exciting innovative organisation”....listen to our MD Mary Foley share more of her thoughts in this short video [link removed].
- Being part of Healthcare’s digital future. Watch our video [link removed] which explains how Telstra Health is shaping it now.
- Joining our Aged and Disability team who are committed to providing high quality software solutions to the aged care and disability market.

To be part of something meaningful and impact lives across Australia, apply for a role with us today.

To attend a Telstra premises in certain states / territories, employees will be required to be vaccinated against Covid-19. This is ensure the safety and wellbeing of our people and customers. Please speak to us if you have any questions about this based on your individual circumstances.

We are a Circle Back Initiative Employer. We commit to respond to every applicant, and you will hear back from us soon.
